

GfA processing machines: HSG5 welding unit

Compact and precise in equal measure: the mobile HSG5 welding unit from GfA

Precisely cut, neatly welded – 100% tight! We also ensure you can work on the move: with the HSG5 welding unit, you can process GfA sealing profiles just as perfectly on the construction site as in the workshop:

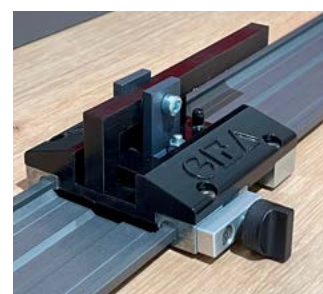

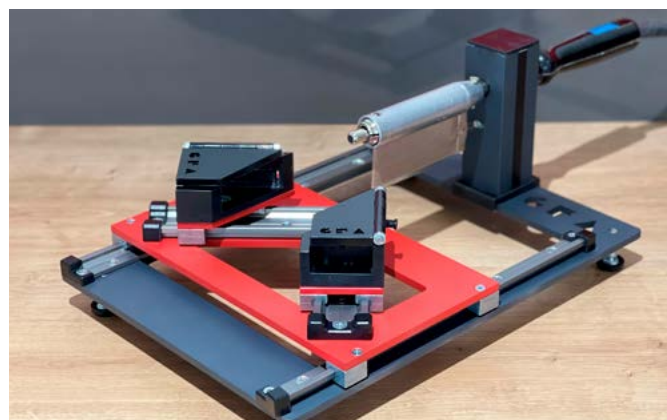

- ▲ including precisely manufactured cutting and welding cores (printed using the 3D process in our in-house prototyping centre)
- ▲ permits precise 45° cuts with minimal effort
- ▲ handy and compact
- ▲ compatible with all GfA PVC and TPE items
- ▲ axe-shaped welding tool with CE marking
- ▲ in a sturdy case – impact-proof, dust- and water-tight

Product components

HSG5	mobile welding unit incl. GB-101 HSG5, core holder incl. GB-102 HSG5, welding cores (standard) without cutter core
------	---

optional:

GB-101 HSG5	core holder
GB-102 HSG5	SWK welding cores
GB-103 HSG5	SNK cutting core
GB-104 HSG5	measurement section (2 m)
GB-105 HSG5	measurement section (1 m)
GB-106 HSG5	footprint (3D printing)
GB-107 HSG5	punch
GB-108 HSG5	trolley case, red
GB-109 HSG5	PTFE films (6 pce.)

Sealing profiles
perfectly processed –
since 1979
